

# MACH-5® VIBRATION IMPACT

# MFI2

# VIBRATION IMPACT RESISTANT

A vibration damping, industrial grade, work glove. Synthetic suede palm features ergonomically designed, non-compressible, gel padding that absorbs vibration energy to reduce fatigue. Exposed fingers for unimpeded tactility. Back is highly breathable with a neoprene knuckle panel. Reinforced thumb saddle for increased durability. Exclusive hybrid cuff system for comfort & rapid egress. Terry cloth sweat wipe thumb.
