

T-Link® Respirator

Move Freely

The T-Link® has been designed to move with you, not against you. With your comfort and job our main focus, the T-Link transforms how you work, advancing your safety and increasing productivity.

Your ability to see has been at the forefront of our design process, with the T-Link boasting a large visor that enables you to easily connect with your surroundings. This is further supported by the Tychem® hood that securely attaches to the headtop, ensuring your downward and peripheral vision is never compromised. The soft breathable inner-bib and extra tuck-in collar ensures maximized comfort and helps to direct air down your body for cooling.

Fitted with a padded headliner and head suspension system, the headtop's weight is evenly distributed to enhance your experience of comfort, relieving you of aches and strains on your neck. Being fully adjustable ensures the respirator fits securely to all head sizes, maximizing stability and always moving with your head. Our innovative design ensures you have a greater range of movement, so you can focus on the task at hand.

The T-Link is certified to the standards below:

NIOSH

APPROVED

PAPR & SAR TYPE C

ANSI

S3.19

HEARING PROTECTION

Only in conjunction with 18-533 earmuffs.

Z89.1

HARD HAT PROTECTION

Type 1 Class C

Not all configurations conform to this standard. Please visit rpb-safety.com for more details.

Z87

EYE & FACE PROTECTION

Not all configurations conform to this standard. Please visit gvs-rpb.com for more details.

Optional Comfort-Link™ Fit System

The Comfort-Link™ is an optional, fully-adjustable fit system that allows total control of helmet and head placement as well as making sure the T-Link moves with your head.

Option of bump cap or ANSI Z89.1 certified hard hat protection.

Padded headliner supports weight distribution while relieving you of the effects of any pressure points.

Air flow and distribution is fully adjustable with the air deflector system to suit personal preference.

Optional ANSI Z87 certified safety lens.

Large viewing window for exceptional downward and peripheral vision.

Fixed lens frame ensures the lens will never hit your nose or optical aids being used.

Optically clear peel-off and cassette lenses available.

Two cape materials available: DuPont™ Tychem® 2000, DuPont™ Tychem® 4000.

Breathing tube easily attaches to the respirator and swivels to eliminate tangles. Centralized location ensures even weight distribution.

Adjustable ratchet system ensures a customized fit that supports movement, while increasing comfort and productivity.

Soft, breathable inner-bib and long tuck-in collar for extra protection and upper body air flow.
