AboveView™
Industrial Safety Helmet

SEE WHAT YOU'VE BEEN MISSING

Featuring a see-through visor that allows workers to see hazards overhead, the AboveView™ helmet increases a worker's peripheral view by 50%. The helmet is designed with a wide brim for increased protection from the elements and comes equipped with accessory slots for a variety of attachments.

AboveView comes with 20mm nylon crown stripes, a large easy-to-clean vinyl brow pad, and FlexGen™ ratchet suspension.

AboveView is the only safety helmet offering replaceable visors in clear, grey, and yellow tints. Made from high-density Polyethylene.

Modern Look. Ratchet System

- New Appearance.
- Matte Finish Surface.
- Aesthetic Design.

FlexGen™ Ratchet Suspension

COMFORT. STYLISH. SAFETY.

Smoother. Ratchet System

- Metal-free.
- Big Triangle Knob.
- Easy Adjustment.

One System fits all. Adjustable Sizing

Ratchet suspensions
can be adjusted
between helmet sizes
6 1/2" - 8" (52-64cm).

Front and Rear. Height Adjustment

Two-level of adjustment on height to better
allow the helmet suspension to sit on your
head comfortably.

As the inventor of the safety helmet,
Bullard has focused its efforts on saving
lives with high-quality safety products for
more than 120 years.

Designed for Bullard industrial safety
helmets, the FlexGen™ ratchet suspension
offers outstanding performance with all-
day comfort wear and a modern matte
finish surface with a triangle large knob
for a stylish look from the rear. The nape
swivel pad sits gently just below the bump
of the occipital bone, holding the helmet
securely onto your head.

More Comfortable. Nape Swivel Pad

Skeleton structure design provides optimal air circulation and avoids heat
build-up. The flexible pad is designed to move and sit according to the
contours of the user's head. Its ergonomic design reduces peak pressure
on the wearer's neck and prevents hair from being pulled.

- Snug-fit.
- Flexible.
- Stress Release.

Personal Hygiene. Nape Cover (Optional)

Extra comfort for Nape Swivel Pad.

Easily removable from the helmet,
which allows user to wash them at
any time and prevent bacteria
growth on the skin.
